## The World of Numbers

Given two integers, $X$ and $Y$, find their sum, difference, product, and quotient.

## Input Format

Two lines containing one integer each ( $X$ and $Y$, respectively).

## Constraints

$-100 \leq X, Y \leq 100$
$Y \neq 0$

## Output Format

Four lines containing the sum ( $X+Y$ ), difference ( $X-Y$ ), product ( $X \times Y$ ), and quotient ( $X \div Y$ ), respectively.
(While computing the quotient, print only the integer part.)

## Sample Input

```
5
2
```

## Sample Output

```
    7
    3
    10
    2
```

## Explanation

```
5+2 = 7
5-2 = 3
5 * 2 = 10
5 / 2 = 2 (Integer part)
```
