

# Solve Me First FP

This is an introductory challenge. The purpose of this challenge is to give you a working I/O template in your preferred language. It includes scanning **2** integers from `STDIN`, calling a function, returning a value, and printing it to `STDOUT`.

Your task is to scan two numbers,  $A$  and  $B$  from `STDIN`, and print the sum  $A + B$  on `STDOUT`.

**Note:** The code has been saved in a template that you can submit if you want.

## Input Format

You are given two integers,  $A$  and  $B$  on separate lines.

## Output Format

Output an integer that denotes  $A + B$

## Constraints

$$1 \leq A, B \leq 1000$$

## Sample Input

```
2
3
```

## Sample Output

```
5
```
