

Matching Specific Characters

[]

The character class `[]` matches only one out of several characters placed inside the square brackets.

In the above image, the Regex Pattern is matched with the Test String.

Task

You have a test string S .

Your task is to write a regex that will match S with following conditions:

- S must be of length: 6
- First character: 1, 2 or 3
- Second character: 1, 2 or 0
- Third character: x, s or 0
- Fourth character: 3, 0, A or a
- Fifth character: x, s or u
- Sixth character: . or ,

Note

This is a regex only challenge. You are not required to write any code.

You have to fill the regex pattern in the blank (_____).
