

# Printing Tokens

Given a sentence,  $s$ , print each word of the sentence in a new line.

## Input Format

The first and only line contains a sentence,  $s$ .

## Constraints

$$1 \leq \text{len}(s) \leq 1000$$

## Output Format

Print each word of the sentence in a new line.

## Sample Input 0

```
This is C
```

## Sample Output 0

```
This
is
C
```

## Explanation 0

In the given string, there are three words ["This", "is", "C"]. We have to print each of these words in a new line.

## Sample Input 1

```
Learning C is fun
```

## Sample Output 1

```
Learning
C
is
fun
```

## Sample Input 2

```
How is that
```

## Sample Output 2

How  
is  
that
