CLUMIO

Clumio is the innovator of backup-as-a-service for the enterprise.

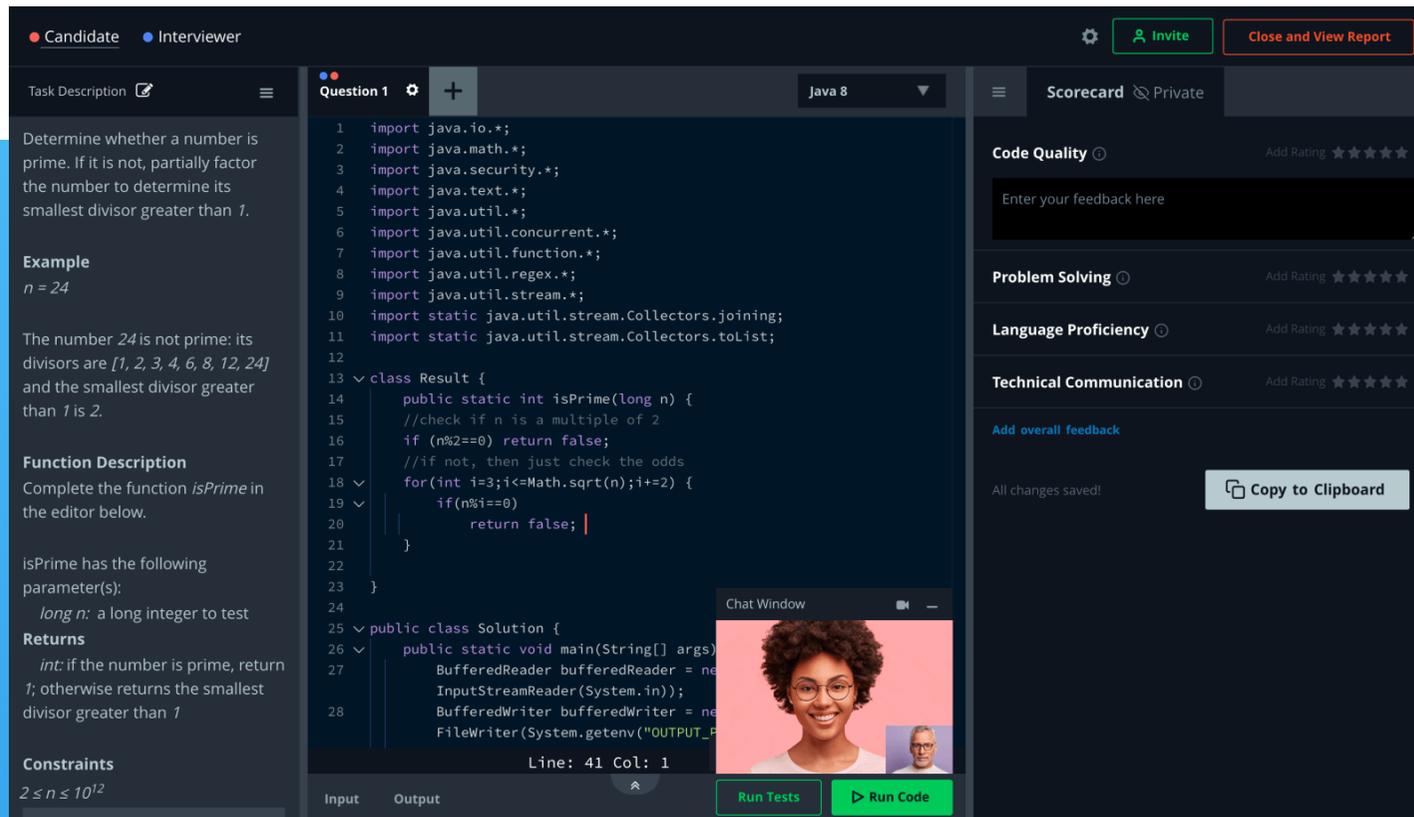

Headquartered in California, Clumio is backed by Sutter Hill Ventures, Altimeter Capital and Index Ventures.

Logesh Chandramoorthy
Head of Talent Acquisition

“

HackerRank is bread and butter for us at Clumio and has helped us fill key roles across front end, back end and test automation. Our Hiring Managers have been assessing candidates in real time on Eclipse Che environment powered by HackerRank Projects to assess role-specific skills and identify strong developers.

The screenshot displays the HackerRank interview environment. On the left, the 'Task Description' panel shows a problem about prime numbers and a function `isPrime`. The central code editor shows Java code for a solution. On the right, the 'Scorecard' panel lists categories like Code Quality, Problem Solving, Language Proficiency, and Technical Communication, each with a rating. A 'Chat Window' is visible at the bottom right, showing a video call with a candidate and an interviewer.

CodePair's customizable, developer friendly editor with VIM / Emacs, Autocomplete and REPL support has helped us conduct in-depth, repeatable interviews in a real time pair programming environment. This has helped us gain better clarity on skills and provide candidates with a developer-friendly interview experience.

50%

HackerRank has helped us find quality talent faster with online coding tests and assessments which has resulted in time savings of over 50%.

10x

We've seen a 10X ROI with HackerRank. The platform has allowed us to pinpoint high-quality candidates by evaluating their coding skills long before they enter our interviewing funnel.
