HackerRank + XPERI

Xperi Corporation (Nasdaq: XPER) and its wholly owned subsidiaries, DTS, FotoNation, HDRadio, Imax Enhanced and TiVO, are dedicated to creating innovative technology solutions that enable extraordinary experiences for people around the world.

HackerRank

"

In today's complex and ambiguous environment, speed is the most important currency of business. HackerRank has helped us screen, interview, and hire quality talent fast. Thanks to their Developer Skills Platform, our average time to hire is **2 weeks.**

Anupam Srivastava
Director, Talent Acquisition
EMEA & APAC

XPERI

HackerRank provides an extremely effective solution to conduct remote, real-world technical interviews. Its interactive terminal to execute code, coupled with a vast library of skills-based questions vetted by industry experts, have helped us scale our engineering hiring efficiently.

XPERI

HackerRank

HackerRank is embedded into

every step of our candidate journey

It helps us with upfront screening, in-depth interviewing and making a highly informed hiring decision based on skills over pedigree

HackerRank helps us identify

hidden gems

across talent markets worldwide – across software developers, back end engineers and software leaders.
